Subject: Falmouth Harbour Ports & Marine Facilities Safety Code Declaration of Compliance

On behalf of Falmouth Harbour, I confirm that the Duty Holder has reviewed the organisation's compliance with the Ports & Marine Facilities Safety Code (PMSC) as part of the 2025/26 compliance exercise.

I confirm that appropriate and proportionate measures are in place to ensure the safe management of marine operations within the harbour, including the identification, assessment and control of marine risks. The harbour authority has in place a Marine Safety Management System (MSMS) that is under regular review and supports the continuous improvement of marine safety.

I further confirm that the Falmouth Harbour Board as the Duty Holder body has appropriate governance, assurance and oversight arrangements in place to discharge its responsibilities under the Code, including access to a designated person for competent advice and delivery of an annual compliance audit. Our designated person has recently reported (Dec 2025) that he considers our MSMS compliant with the Code.

Where areas for improvement have been identified, these are being addressed through agreed actions and timescales as part of the harbour authority's commitment to continuous improvement and compliance with the principles of the PMSC.

This declaration is made in good faith and reflects the Duty Holder's understanding of the harbour authority's current arrangements and level of compliance at the time of submission.

Yours faithfully

Nigel Tipple

Chair on behalf of the Duty Holder
